Subject: Your NRC amendment request to add a Kansas City faciity(45-25221-01MD,
Mail control 137330)
Place: LAT@nrc.gov

License No. 45-25221-01, Dkt. No. 03032974

We have completed a preliminary review of your request and have some questions as follows:

1. In your application you have indicated that obligations previously submitted to NRC would be adhered to. Please clarify in your application if the new proposed facility is an already existing pharmacy which you are planning to move, and if so, do you intend to operate the facility under the current Eastern Isotopes radiation safety program requirements and personnel?

2. Additional details on the shielding or other radition safety equipment to be used at this location should be provided. Additionally specifications on the air handling systems and air sampling equipment should be provided.

3. We will need indication of your possession of a pharmacy license in Missouri prior to issuing a license.

You may reply by facsimile to 610 337-5269 and refer to Mail Control 137330.

Thank you.
