Reference: Radioactive Materials License No. 45-23063-01

Dear Ms. Simmons:

We would like to request that our license be amended to remove the use of byproduct material for certain in-vitro clinical or laboratory testing as described in 10 CFR 31.11. We realize that typically a close out survey is required to fulfill this request, however we have no knowledge of these materials being used under our license (for at least the previous 21 years) and we have no evidence or documentation of their use.

Please advise us as to what cause of action to take to have these materials removed from our license. Thank you for your assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Dahling".

Jim Dahling
Chief Executive Officer
