**Subject:** talking paper for tomorrow's call

Good morning Steve

I attached a talking paper of items for tomorrow's phone call. There are two versions, one in WordPerfect and one in MS Word - don't know which format you use. I'll call you at 2:00.

If you have any questions before the call, please ask. I'll be working from home tomorrow, but will check my email routinely.

Barry

**Subject:** Information request

Barry:

I hope you enjoyed your weekend. I am attaching a report that I believe will meet your request.

This report shows the backlog of corrective maintenance items that are currently open.

Column 4 gives you the PIMS AR Type (CM for corrective maintenance).

Column 5 gives you the AR class (ECR- engineering change request; ETT- equipment repair; IMP- improvement)

The last column gives you how long the item has been open. If it has been open for greated than one year, then it most likely falls under the old CAP process.

I hope this meets your need. If you need anything else, please contact me at any time.

Thanks  
Steve Beck

Steve

the list of system numbers you were provided to give me seems incomplete; for example the list shows system 1C, but the list of online and outage maintenance shows 1A, 1B, 1C, ..., and the maintenance shows system 2 but that is not on the list

is there a more complete list?

Donte Johnson is being pre-processed since they have a photo for him. Linda will provide his slot number to us. He will sign a form when he picks up his badge at the guard house.  
Art Burritt is in Slot 0960.  
Barry Norris is Slot 0524.  
Ron Cureton and Jeff Bream both need to go to badging office at unit 1 for about 20 minutes to in process.
