Document Control Desk  
ATTN: Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission,  
Washington, DC 20555

Dear Director,

The University of Arkansas for Medical Sciences will have no difficulty or impediment in complying with the order imposing additional security measures on the transportation of radioactive material quantities of concern. UAMS will not ship radioactive material in quantities of concern when the threat level is orange or higher.

If you have additional questions please contact me at the above address.

Sincerely,

Carol J Price, Radiation Safety Officer  
Occupational Health & Safety
