RE: Control #137366 regarding waste storage.

Dear Mr. Sir or Madam:

We plan to receive unit doses from the radio-pharmacy. Current practice is to return all unused doses along with the used syringes back to the vendor. All used syringes are stored inside the shielded transportation container. If a waste container is required, we will locate it on the floor, under the countertop, or on top of the countertop along with the necessary shielding.

If you need any further information, please contact me at (787) 448-0747.

Sincerely,

José E. Meléndez, MD
