Dear Mr. Wright:

We have reviewed the final version of the Illinois regulations, 32 Ill. Adm. Code 310, 326, and 350 received by our office on May 2, 2005. This review closes out the following letters from J. Klinger to Paul Lohaus on regulation reviews; April 28, 2005, April 29, 2005 and May 2, 2005. These regulations were reviewed by comparison to the equivalent NRC rules in 10 CFR 30, 34, 36, 39, 40, 70, 71, and 150 and the requirements of the eleven amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We also reviewed your responses to NRC comments contained in the January 20, 2004 letter. We discussed our review of the regulations with Mr. Gibb Vinson on July 6, 2005.

As a result of our review, we found that all of the NRC comments from the January 20, 2004 letter have been addressed. We have no comments on the final versions of the rules submitted.

As discussed with Ted Henry of your staff, Illinois final rules regarding transportation of radioactive materials were reviewed against the requirements of RATS ID 1996-1. Your adoption by reference of the NRC's transportation rules, as of February 10, 2004, did not include the adoption by reference of the October 1, 2004 revision of Part 71 as shown in RATS ID 2004-1. Please note that RATS ID 2004-1 is not due for Agreement State adoption until 2007. In addition, in the letter dated April 28, 2005, Illinois requested review of RATS ID 1998-2. This amendment was reviewed as a final rule by the NRC in August 2000. No comments were produced as a result of this review and thus this amendment was not reviewed at this time. Please note that we have limited our review to regulations required for compatibility and/or health and safety.
