UNITED NUCLEAR CORPORATION, CHEMICALS DIVISION - CERTIFICATE
FOR NON-COMMINGLING OF SPECIAL NUCLEAR MATERIAL INVOLVING
TRANSHIPMENT - DOCKET NO. 70-36, MAY 15, 1964

REFERENCE: UNC ltr dtd 5/11/64
Memo, Odegaarden to Files, dtd 5/15/64

SYMBOL: DML:RHO

United Nuclear Corporation requests establishing a fixed shipping route between Hematite, Missouri, and New Haven, Connecticut, which involves specified transshipment points. The licensee would obtain certificates of non-commingling from each carrier involved and at the points of transshipment. We recommend approval of the licensee's non-commingling procedures.

SUBJECT: SNM-33, Amendment for LTL Shipments Between United Nuclear Corporation Plants at Hematite, Missouri and New Haven, Connecticut

REFERENCE: Our Letter Dated May 11, 1964

Dear Mr. Nussbaumer:

Enclosed please find a "Certificate for Non-Commingle of Special Nuclear Material" as revised May 15, 1964. This has been revised in accordance with conversation with Mr. Layfield of your office. This revised certificate will replace the corresponding certificate dated May 11, 1964.

We have confirmed that the Spector terminals in St. Louis, Missouri and Bridgeport, Connecticut are operated and used exclusively by Spector. Therefore, their certification includes the handling of the shipments in the terminals.

Hopefully this now fulfills the requirements for the license amendment as requested in the referenced letter and your early approval can be obtained.

Yours truly,
