Subject: Re: Salem allegation RI-99-A-0114 - Salem FFD issue

rich,

guy caputo isn't going to tell him what we found, but rather try to secure his cooperation in providing whatever specific information he(lochbaum) may have on the issue(i.e., the paperwork he hints at but says he won't provide).

Dave,

While OI might be done checking police charges by Wednesday, Guy Caputo was also going to get back to Lochbaum directly with what OI found. I would prefer not paneling this issue until after Guy talks to him directly. I don't mind an ad-hoc panel later in the month to decide how to handle this one, particularly since Mark, Greg, you, Glenn & myself should go in and speak to Hub or Wiggins on our approach to close this one before we take our final action in the matter.

It was decided at yesterday's ARB that OI would continue its efforts in determining what police charges may have been incurred by the individual in question during the prescribed time frame. The ARB gave an ECD of 10/22/99 for OI to conclude their findings on this question. I would like to schedule this allegation for discussion at the next scheduled DRP ARB (Wednesday 10/20/99) so that we can discuss OI's progress at that time and whether or not we think our actions can be completed before the 30-day acknowledgment letter time clock expires (11/3/99). My reason for this request is that I think we would be much better served to conclude our review and send the alleged an acknowledgment/closeout letter, instead of sending a boiler-plate acknowledgment letter, then following with a closeout letter a week or two later. Unless anyone disagrees, I will be placing the allegation on the 10/20/99 ARB schedule.
