Dave,

I am scheduled to be at Salem at that time, but I can return early if need be.

Glenn,

This meeting was requested of Dave by PSEG as they are struggling with how to handle the allegation and to what depth they should investigate this concern. Neither Dave nor I have a problem with discussing this matter with them. Can you attend this meeting with Dave in my absence?

Jack Carey just called me and said that they would not be able to make it here next Thursday, because his security people have a conflict with that date. He is tentatively shooting for next Friday (6/14) at 2:00 p.m., but he needs to check with the security people first. He will call me back on Monday morning. Could you please get back to me and let me know your availability for next Friday, so I have an answer for him when he calls. Thanks.
