Amendment No. 30

Aluminum Company of America
Alcoa Technical Center
Alcoa Center, Pennsylvania 15069

In accordance with letter dated January 3, 1974, License Number 37-07653-02
is amended as follows:

Condition 13.A(1) is amended to read:

13.A(1) Each sealed source containing byproduct material, other than Hydrogen 3, with a half-life greater than thirty days and in any form other than gas shall be tested for leakage and/or contamination at intervals not to exceed six months, except that sources in Nuclear-Chicago 5120 devices may be leak tested at intervals not exceeding three years. In the absence of a certificate from a transferor indicating that a test has been made within six months prior to the transfer, the sealed source shall not be put into use until tested.
