Mr. Donald Nussbaumer, Chief
Source and Special Nuclear Materials Branch
Division of Materials Licensing
USAEC
4915 St. Elmo Place
Bethesda, Maryland 20014

Subject: SNM 777, Docket 70-820
Extension of Expiration Date

Dear Sir:

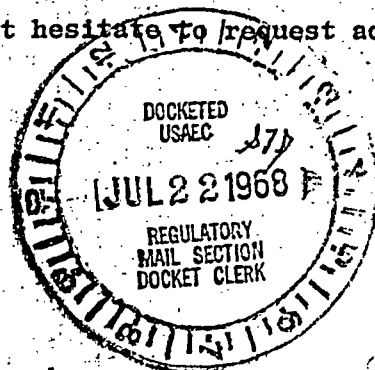

Extension of special nuclear material license SNM 777 expiration date from September 30, 1968 to November 30, 1968 is respectfully requested. This request is made to permit a thorough review of the status of previous submittals of portions of the license renewal manuals. Also a single formal submittal of the renewal application would be made.

Assuming approval of this extension, following is a schedule leading toward submission of the formal renewal application:

Review present license and initiate action to update	8/23/68
Prepare draft submittal	9/27/68
Formal submittal	10/31/68

During the preparation of the draft submittal, UNC would expect to review with the AEC portions of the application as they are completed.

Please do not hesitate to request additional information that may be needed.

Respectfully yours,

L. J. Swallow, Manager
Nuclear and Industrial Safety
Commercial Products Division
