Mr. Elliott Earl, President
The Institute of Nuclear Serology, Inc.
Manchester, Connecticut 06042

Dear Mr. Earl:

This replies to your letters of August 26 and September 3, 1964, in which you requested a copy of United Nuclear Corporation's Thirty-Day Report concerning the nuclear incident which occurred at the company's Wood River Junction, Rhode Island plant, on July 24, 1964. Further, you inquired as to whether the Commission intends to conduct a public hearing in the matter.

The Atomic Energy Commission does not have copies of the report, which you requested, in excess of its own requirements. Copies have been placed in the Commission's Public Document Room at 1717 H Street, N. W., Washington, D. C., where they may be reviewed. The Commission's Public Proceedings Branch, Office of the Secretary, U. S. Atomic Energy Commission, Washington, D. C., 20545, will, on request, furnish reproduction of such documents at a charge of \$.20 a page. There are approximately 85 pages involved in the report to which you refer.

You may wish to communicate with United Nuclear Corporation concerning availability of copies of the report.

There are no plans at this time to conduct a public hearing in the matter of the United Nuclear Corporation incident. Enclosed is a copy of preliminary information concerning the matter, issued by the Director of Regulation on August 21, 1964.

Sincerely yours,

Lyall Johnson, Acting Director
Division of Materials Licensing
