Tennessee State Capitol  
Nashville, TN 37243-0001

Dear Governor Bredesen:

With the enclosed certificate of recognition, the Conference of Radiation Control Program Directors, Inc. (CRCPD) and the Organization of Agreement States (OAS) commend the State of Tennessee for having provided 46 years of outstanding radiation safety programs for the protection of your citizens and the regulation of radiation sources in your state. We also commend you for your participation in the Agreement State Program of the U.S. Nuclear Regulatory Commission for the past 40 years.

The CRCPD and the OAS encourage you and the State Executive Branch to continue your strong support for the important services that the Division of Radiological Health provide for your state. Tennessee serves as an outstanding example for radiation control programs in other states and nations.

We hope that you will find an opportunity to present this commendation to the radiation control program director, Lawrence E. Nanney and staff. In doing so, please extend our congratulations and our wishes for continued success in regulating the safe use of radioactive material and radiation-producing equipment.

Sincerely,

  
Debra McBaugh, Chair
