Agreements and Exports Branch
Directorate of Licensing

cc: Materials & Services Branch, DIP

We have received written confirmation from *Japan*

, that the above material, proposed
for export, will be subject to all the terms and conditions of the following
Agreement for Cooperation: *U.S. Japan*

which entered into force on *July 10, 1968*; and that the ultimate
consignee is authorized to receive and possess the material. We are of the
opinion, therefore, that the issuance of the export license would not be
inimical to the interests of the United States.
