Subject: Decommissioning at SLH

Gene,

Regarding radioactive materials of concern (pg 2 of 6) in the Dickson-Dively Facility, there is no evidence that such contaminants ever existed. Nothing the the authorizations or records of disposal ever indicate that there were other radionuclides used other than those listed. The report in question was written by the previous RSO so I have no idea what he may have been referencing.

In any case, none of that material remains at Saint Luke's. I will fax you the shipment manifest confirmations of receipt as you requested.

Regards,

Greg Sackett, CHP
Radiation Safety Officer
