Request for Change of Materials License

REFERENCE: 1. NRC letter, Issuance of License Renewal, Control No. 132671,
dated February 10, 2003

LETTER NUMBER: 2.05.058

Dear Sir:

By Reference 1, the NRC issued Amendment 05 to Materials License 20-07626-04. The amendment included renewal of the materials license.

As discussed during a recent telephone call with you and the Pilgrim Licensing staff, this letter requests that the license be amended to reflect a change of the person who fulfills the Radiation Safety Officer position at Pilgrim Nuclear Power Station. Specifically, it is requested that the name identified in Section 11, Parts A and B of the materials license be changed to Paul J. McNulty. Mr. McNulty will serve as the Radiation Safety Officer and licensed material will be used by, or under the supervision of, Mr. McNulty.

Mr. McNulty's resume is provided in Enclosure 1. A mark-up of the materials license showing the requested changes is provided in Enclosure 2.

Except for the requested change in the name of the person who fulfills the Radiation Safety Officer position at Pilgrim, there are no other changes to the materials license. All other terms and conditions of the materials license remain in effect.

This letter contains no commitments.
