SUBJECT: COMBUSTION ENGINEERING (CE) HEMATITE INTEGRATED SAFETY ASSESSMENT  
SCHEDULE (TAC NO. L30922)

Dear Mr. Sharkey:

This acknowledges receipt of your letter dated November 12, 1996, which transmitted a revised schedule and scope for conducting the Integrated Safety Assessment (ISA) for plant systems and processes at the Hematite facility. The following schedule is acceptable for completion of ISA documents:

1. Conversion ISA Complete: June 9, 1997.
2. Recycle/Recovery ISA Complete: November 30, 1998.
3. Pellet Plant Font End ISA Complete: October 8, 1999.
4. Storage Units ISA Complete: September 9, 2000.
5. Fuel Rod Loading and Bundle Assembly ISA Complete: March 30, 2001.
6. Support Processes and Ancillary Equipment not Analyzed in Previous ISA: December 31, 2002.

CE's original schedule for completion of the ISA needs to be adjusted to be consistent with the schedule established for CE's ongoing criticality safety program update, which was discussed with NRC on August 14, 1996.

If you have any questions regarding this matter, please call Sean Soong of my staff at (301) 415-8155.

Sincerely,
