Subject: (O'Hanlon) call *1C* *B. Holman*

(b)(6) called me yesterday. I need to fill you in on my discussion. Topics:

- why letter sent to Ferland not cno
- schedule of review team
- number of interviews....was going to be 60 to 80 ..... ended up being far more than double that (i think he said as many as 175)
- schedule for providing results to pseg
- nature of public meeting....
- relationship between scwe and "org effectiveness" issues
- size of "event population" that they looked into
- corp/site interface.....
- general nature of issues will take time to resolve

I answered factual questions about letter and emphasized need to address at some level "org effectiveness/corrective action program implementation issues" as they may affect scwe.... he understood.
