70-36  
release

NIS/86/4002  
January 20, 1986

R

Mr. W. T. Crow, Section Leader  
Uranium Fuel Licensing Branch  
Division of Fuel Cycle and Material Safety, NMSS  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

License No. SNM-33  
Docket No. 70-36

Dear Mr. Crow:

This is to request that our SNM-33 possession limit for source material be increased from 20,000 kilograms to 50,000 kilograms.

As discussed with Mr. George Bidinger of your staff, part of this material will be stored as natural  $UF_6$  in 10-ton cylinders. The same storage and handling procedures currently used for enriched  $UF_6$  will be used for the natural material. Storage will be within the site manufacturing area security fence.

A check for the amendment fee of \$150.00 is being sent directly to the License Fee Management Branch under separate cover.

Very truly yours,

COMBUSTION ENGINEERING, INC.
