Subject: Contact with Region I Licensees relative to POGO Web Page

This is to confirm that, as discussed in the May 8., 2002, Allegation Review Board for Region I Allegation 2002-064, I or my staff verbally informed the security managers of Region I plants of the existence of Project on Government Oversight (POGO) webpage, for their information. Most security managers were already familiar with the POGO web page.
