~~--SENSITIVE ALLEGATION MATERIAL--~~

John,

I decided to send you the letter electronically instead for ease in transferring the information.

As we discussed earlier, the Commissioner was present at an Oct. 11th meeting and although he did not want to be on concurrence for this allegation closure letter, he did want to see it. [The previous version that the Commissioner saw was incomplete.]

FYI - our process requires this letter to be out by early October, however, we try NOT to even come close to that date, so ASAP is all the better.

We will await an email confirmation from you and then issue the letter.  
Many thanks in advance.
