Attached is a draft closeout for 2002-0132 on the POGO-like security allegation at Salem/HC.

The allegation is approaching its 180 day due date and needs your prompt attention. I have taken the liberty to provide this "straw man" for your detailed technical review and would like to get your comments back by COB, tomorrow, if possible. We need to get the letter into concurrence in the next few days to ensure its issuance prior to the due date.
