Dear Ms. Schroeder:

I would like to nominate Mr. R. Brad Harvey as the authorized U.S. Nuclear Regulatory Commission (NRC) representative on the American Nuclear Society's ANS-2.3 Working Group. In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.
