Subject: Re: Ack/Closeout letter for RI-2000-A-0127

April,

I am working on the paragraph today and have been in "hot pursuit" of the issue from the time that I was assigned to the Branch on Monday. I now have the information that is needed to write the paragraph and will construct it today. Because it is a little touchy, I am going to send an advice copy to the residents at the same time I send it to you/Sharon. This may result in an interim edit late today or tomorrow, but I think we need to make sure that we send a completely accurate letter out. We only want to do this once and I am allergic to green felt table cloths and discussions with people whose titles in in OI.

>>> April Smith 11/15 4:47 PM >>>
Ken,

I'm trying to get the status on D.P. input for the ack/closeout letter for RI-2000-A-0127 (email question about Salem 1/2). If that input is available could you email it to either Dave or me. If not, could you give us an idea when to expect it. Our due date is 11/20, so if we could have the input by COB tomorrow, we'd have plenty of time to complete it.

Thanks in advance,

April
