

September 22, 2005

Mr. Peter J. Mustardo, Council President  
Township of Berkeley  
627 Pinewald-Keswick Road  
P. O. Box B  
Bayville, NJ 08721

Dear Mr. Mustardo:

I am responding on behalf of the Nuclear Regulatory Commission (NRC) to Berkeley Township Council's Resolution No. 05-245-R, dated July 12, 2005. The resolution communicated concerns by the Township Council about the emergency evacuation plan for the Oyster Creek Nuclear Generating Station (OCNGS), stating in part that "BE IT RESOLVED by Township Council of the Township of Berkeley that the Township determines the evacuation plan for the Oyster Creek Generating Station to be entirely inadequate for the protection of area residents."

We reviewed the resolution and note that in a letter dated December 31, 2003 (NRC Agencywide Document Access and Management System, Accession No. ML033650167), in response to Berkeley Township Council's Resolution No. 03-398-R, the NRC has provided a detailed response regarding, among other things, the issue of emergency preparedness, with specific emphasis on evacuation planning. In addition, the NRC's public website at <http://www.nrc.gov/reading-rm/doc-collections/fact-sheets> contains detailed general information about emergency preparedness and evacuation planning. We determine that the Council's Resolution No. 05-245-R did not provide any new information for the NRC to evaluate, and did not request any NRC action.

If you have any further questions regarding this matter, please call the NRC Project Manager for OCNGS, Mr. Peter Tam, at 301-415-1451.

Sincerely,

**/RA/**
