Mr. John D. Kinneman  
Chief, Materials Security and Industrial Branch  
Division of Nuclear Materials Safety  
United States Nuclear Regulatory Commission  
Region I  
475 Allendale Road  
King of Prussia, Pennsylvania 19406-1415

Reference: Receipt of NRC Letter Regarding Proceedings of the Pre-Decisional Enforcement Conference, NRC Report Nos. 03033097/2004001 and 03030462/2004002

Dear Mr. Kinneman:

45-25239-01

45-24974-01

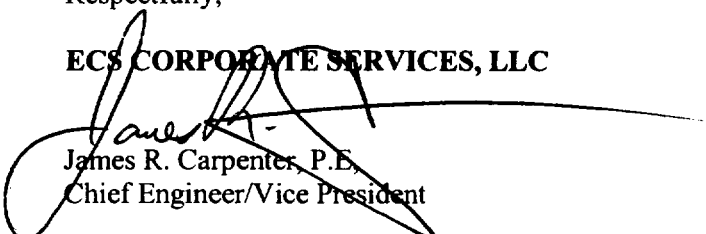

Thank you for your letter of August 15, 2005 (postmarked September 1, 2005 and received September 7, 2005) regarding the above referenced pre-decisional enforcement conference. The summary of the proceedings appeared to capture the essence of the points relating to this matter.

After the pre-decisional enforcement conference was closed, we informally discussed two recent accidents resulting in the destruction of two nuclear density gauges. The second to last paragraph of the summary briefly discusses both of these incidents. In the incident where our technician had left the gauge unattended, this individual was terminated immediately for not following ECS policy and NRC regulations. The fact that the technician was terminated was omitted from the meeting summary. We are sure that the investigation report prepared by Ms. Jenny Johanson regarding this matter will include that information; however, we wanted to make sure that this fact was reflected in the meeting summary since the discussion of the two incidents was not transcribed.

As we have expressed previously, we have appreciated the manner in which the NRC handled the pre-decisional enforcement conference. We await your decision regarding the enforcement action discussed at the pre-decisional enforcement conference.

Respectfully,

**ECS CORPORATE SERVICES, LLC**

  
James R. Carpenter, P.E.  
Chief Engineer/Vice President

cc: Stan Murphy – Corporate Radiation Safety Officer  
Leo J. Titus, Jr. – Chantilly Office Manager  
Harry Moore – Richmond Office Manager
