Subject: Late Referral Letter

Dan,

As I had discussed with you on Friday (and as I believe previously by Sharon to you in an email) you have a referral letter that was due out on June 11, 2004 (that although Anne implied was done) has not yet been done. As you had mentioned, yes, this was a panel imposed due date, however ...

I bring this to your attention because as of today the allegation (RI-2004-A-0020) is at **105 days**. Please be careful, as your branch had this situation in the past where a FitzPatrick referral was late going out and not allowing the licensee ample time to get us their response without passing the **150 and then 180 day** milestones.

Thank you for attention in this matter.

Leanne
