Subject: Meeting with Randy

Hello Glenn:

The workers got back to me late Friday. They opted for the Wednesday, February 11th meeting date. They'd like to start around 6:30pm. The location:

Woodstown Friends Meeting House
104 North Main Street
Woodstown, NJ 08098

According to MapQuest, the location is about one block north of Route 40 as it passes through Woodstown. Route 40 is shown as making a left dogleg turn and then a shallower right dogleg turn as you head east. Main Street is the road at the right dogleg turn with North Main being on the left side and South Main on the right.

It's an old white building with black trim. There's parking in the back with a door to the building close to the parking lot.

Mary Waddington will be there to open the building and guide people to the meeting room.

I'll be attending the meeting, but only to help the NRC and the workers through any communication barriers. I am not taking notes and nothing said during the meeting, either by the NRC or the workers, will be used by me later.

The workers understand that the purpose of the meeting is not to relay information about specific allegations. They understand that if the NRC is interested about certain issues raised during the meeting (i.e., things that might rise to the allegation level), those issues will be pursued subsequently.

Some of the workers are concerned about their identities. They may not feel comfortable providing their names at the meeting.

Thanks,
Dave Lochbaum
