What did he reply? I would hate to duplicate his efforts.

Glenn

PS Scott and I have jumped to the challenge of the requested actions and will handle here in the region.

Glenn,
George asked the same question. I told him he was.

Who is responsible for addressing the action item contained in this email from H. Miller?

>>> Hubert J. Miller 04/08/04 09:54AM >>>

I talked to Bakken

told him we will need to engage with them on their program addressing whatever comes out of the ongoing special reviews, usa review, etc

need their plan at some point

will be establishing our oversight plan

he said review is set back a few weeks because of expansion in scope, intrviews, etc

i told him that at the annual meeting, we need to get results and broad sense of direction....even if more detail follows later

ACTION -- pls someone check what was done in dc cook case several years ago....dc cook submitted on docket fairly detailed long term plan....region acknowledged...Bakken thinks this worked in that case.... it might be a useable pattern....it might not be.... we should, at least, look into what was done. dc cook might have been in a different place in the rop..... please, someone check with region iii....see what was done....understand differences and potential similarities.

ACTION ... meet on Monday at latest with broad strategy and plan.... gina pls schedule

Pls see me if you have any questions.
