Subject: What's the right message?

Commissioner Merrifield's staff has asked for our input on the messages that he should give to Ferland & the executives on Tuesday night and to plant management & staff on Wednesday. Scott has taken a first cut - as attached in the file or on G:\Br.3\Merrifield\Messages to exec & staff.wpd.

I realize that you're strapped with all that's happening, but you're also in the best position to know what the plant should hear from Merrifield. If you can add to the process by Friday COB, I would appreciate it.

CC: Barber, Scott
