Good question. I'm not certain there is a clear answer, but considering it on Thursday is a good idea.

Glenn,

Any thoughts on Norm Cohen's planned demonstration for March 28? According to his web site <http://www.unplugsalem.org/> he has a huge amount of speakers attending. My thoughts are that it will be awkward for us to be there, however it would be informative to hear the "invited whistle blower". I will be out of town that weekend, but between all of us I am certain we can make a commitment if desired. Has the allegation review board considered our presence? Thanks.
