License Nos.: NPF-4/7

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNITS 1 AND 2
RESPONSE TO A REQUEST FOR ADDITIONAL INFORMATION
FEBRUARY 2002, ORDER SECTION B.5.b

On February 25, 2005 the NRC issued *NRC Staff Guidance for Use in Achieving Satisfactory Compliance with February 25, 2002, Order Section B.5.b*, which requested licensees to provide a detailed response describing site-specific plans for addressing various considerations in the guidance and an implementation schedule by May 31, 2005. Implementation was to be complete by August 31, 2005. Virginia Electric and Power Company (Dominion) responded for North Anna Power Station in a May 25, 2005 letter (Serial No. 05-118).

Based on the NRC's review of Dominion's May 25, 2005 submittal, the NRC informally requested additional information. Attached is Dominion's response to those questions. Commitments associated with the NRC's February 25, 2005 guidance were documented in Attachment 1 to Dominion's May 25, 2005 letter. The attached responses are provided for information only. Some of these responses were also discussed in a conference call with the NRC on August 18, 2005.

If you have any questions, please contact Ms. Margaret Earle at (804) 273-2768.

Very truly yours,

Eugene S. Grecheck
Vice President – Nuclear Support Services
