NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

SEP 16 2005

Williams Skiles, M.D.  
Radiation Safety Officer  
King's Daughters' Hospital  
and Health Services  
One King's Daughters' Drive  
Madison, IN 47250

Dear Dr. Skiles:

Enclosed is Amendment No. 17 to your NRC Material License No. 13-18692-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with my telephone conversation on September 14, 2005, with Kimberly True of your staff, Dr. Bowman is authorized for 10 CFR 35.100, 35.200 and 35.300 limited to diagnostic studies since his ABR Certification is in Diagnostic Radiology. If you wish Dr. Bowman be listed on your NRC license for therapeutic procedures under 35.300, you will need to provide, in an amendment, the required information contained in preceptor form NRC Form 313A (Attached).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Wm. Skiles, M.D.

2

Sincerely,

  
James R. Mullauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
