

September 27, 2005

Mr. Raymond A. Mosley, Director
Office of the Federal Register
National Archives and Records Administration
Washington, DC 20408

Dear Mr. Mosley:

The U.S. Nuclear Regulatory Commission is requesting emergency publication date of Friday, September 30, 2005, of the documents entitled, U.S. Nuclear Regulatory Commission Notice of Availability of NUREG-1800, Revision 1, "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants," NUREG-1801, Revision 1, "Generic Aging Lessons Learned (GALL) Report," NUREG-1832, "Analysis of Public Comments on the Revised License Renewal Guidance Documents," and Regulatory Guide 1.188, "Regulatory Guide for Standard Format and Content for Applications to Renew Nuclear Power Plant Operating Licenses." These documents provide the bases for applicants' preparation of license renewal applications to operate their nuclear power plants for an additional 20 years. Continued operation of these plants has significant financial and energy sufficiency implications.

These documents need to be expedited to ensure that license renewal applications submitted are consistent with the Commission's review process. If you need additional information regarding this request, please contact Mr. Jerry Dozier, License Renewal Project Manager, at 301-415-1014 or via e-mail at jxd@nrc.gov.

Sincerely,

/RA/

Jacob Zimmerman, Section Chief
License Renewal Section B
License Renewal and Environmental Impacts Program
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation
