NRC ADVISORY COMMITTEE ON REACTOR SAFEGUARDS TO MEET OCT. 6-8 IN ROCKVILLE, MARYLAND

The Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS) will hold a public meeting Oct. 6-8 in Rockville, Md., to discuss, among other items, the license renewal application for the Browns Ferry nuclear power plant, units 1, 2 and 3, in Alabama. The committee will also discuss pressure vessel head integrity calculations related to the Davis-Besse nuclear power plant and be briefed by NRC staff on licensee response to an agency bulletin on emergency preparedness and response actions for security-based events.

The meeting will be held in Room T-2B3 of the agency's Two White Flint North building, at 11545 Rockville Pike. It will begin at 8:30 a.m. each day and end at 7 p.m. on Thursday and Friday; the session on Saturday will end at 12:30 p.m. A complete agenda is available on the NRC's Web site at: <http://www.nrc.gov/reading-rm/doc-collections/acrs/agenda/2005/>. Anyone with questions or those wanting to make public statements during the meeting should contact Sam Duraiswamy at 301-415-7364.

The ACRS, as mandated by the Atomic Energy Act of 1954, as amended, advises the Commission on licensing, the operation of nuclear power plants and related safety issues.
