

## TELEPHONE CONVERSATION RECORD

Date: Sept. 8, 2005

Name of person called or who called you: Jim Miller

9 Incoming  
U 9Outgoing

Organization: Sabia, Inc.

Phone No.: 858-279-4000

Subject: License amendment request

### Summary:

Licensee needs to submit checklists from appendices C & F in NUREGS 1556, Vol. 12 & 16 respectively. Also, do not refer to any previous documents submitted as we may not have them in our possession. Instead submit a copy of any document that supports checklist items as necessary.

The checklist in Vol. 16 is most important because it specifies information on the mfg. and model # of the gauges and also items required by 10 CFR 32.51 & 32.52.

The mfg & distribution request on page 2 of Sabia's 8/2/05 letter has already been approved in license amendment 04.

There is a second part to this amendment request which lists 6 new authorized gauge users to be added to the license.

To help eliminate the confusion of the submittal of so many documents concerning this license, I advised Mr. Miller to submit amendment requests by regular mail ATTN: NMLB instead of e-mailing the requests to either Jack Whitten or Jim Montgomery.

Signature of person documenting this conversation:

\_\_\_\_\_  
James L. Montgomery
