**SUBJECT: COOPER NUCLEAR STATION - NRC INITIAL OPERATOR LICENSING  
EXAMINATION REPORT 05000298/2005-302**

Dear Mr. Edington:

In a telephone conversation on September 29, 2005, between Messrs. Dave Tune, Operations Training Superintendent, and Michael Murphy, NRC Chief Examiner, arrangements were made for the administration of a licensing written retake examination at the Cooper Nuclear Station on October 21, 2005.

As agreed during the telephone conversation, your staff will prepare and administer the examination based on the guidelines in Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC's regional office will discuss with your staff any changes that might be necessary before the examination is administered.

Pursuant to Title 10, Section 55.40(b)(3), of the Code of Federal Regulations, an authorized representative of the facility licensee shall approve the outline and written examination before they are submitted to the NRC for review and approval. The examination shall be complete and ready-to-use. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examination to be rescheduled.

In order to conduct the requested written examination, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402.

Appendix E to NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examination is being administered.

This letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on June 30, 2006.

The public reporting burden for this collection of information is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information.

Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-001, or by Internet electronic mail at [BJS1@NRC.GOV](mailto:BJS1@NRC.GOV); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, its enclosures, and your response will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Record (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Thank you for your cooperation in this matter. Mr. M. Barton has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Michael Murphy at 817-860-8152, or myself at 817-860-8159.

Sincerely,

/RA/

R. E. Lantz, Chief  
Operations Branch  
Division of Reactor Safety
