Transportation NMSS
Willste Building
7915 Eastern Avenue
Silver Spring, MD 20910

Dear Mr. Gundersen:

As we discussed, enclosed is a revision to our Security Plan to permit unescorted access to employees of Combustion Engineering's nuclear fuel customers.

These nuclear utility employees are quality control auditors who want to spend extended periods observing the processing and fabrication of fuel for their reactors. Arrangements for unescorted access must be made in advance by the customer for individuals who are known to us, or otherwise properly cleared and identified.

A check for the minimum review fee will be mailed separately.
