Dr. Rothman,

In order to limit financial assurance to the certification value and not require a decommissioning funding plan the following license condition would need to be placed on your license:

"In addition to the possession limits in Item 8, the licensee shall further restrict the possession of unsealed byproduct material to quantities less than 1E5 of the applicable limits in Appendix B of 10 CFR Part 30, as specified in 10 CFR 30.35(d)."

(The 1E5 will be in scientific notation of 10⁵ but I don't know how to superscript the 5 in e-mail.)

A statement that you will develop procedures to ensure the above license condition will not be exceeded is required.

Please request an amendment to us if this is the option is desired.

Sincerely,

Dennis Lawyer
