<p>Summary: I left a message on Mr. Greene's voice-mail for him to get back in touch with me concerning the termination of NRC LN 29-30564-01.</p> <p>14:15 I spoke with Mr. Greene about the licensing action. I asked Mr. Greene if the source had been sent back to New Jersey when the project restarted. Mr. Greene indicated that the source has gone back and forth between the New Jersey site and the calibration laboratory on an "as needed" basis. The project has been completed and the license is no longer required. Mr. Greene agreed to send a fax of the TN license showing that they are authorized to receive the source and stated that since the source was less than 10 microcuries a leak test was not required.</p>
