

October 4, 2005

Mr. Hank Sepp
Site Manager, Director, Decommissioning
Westinghouse Electric Company LLC
3300 State Road P
Festus, MO 63028

SUBJECT: WESTINGHOUSE ELECTRIC COMPANY, LLC - HEMATITE FACILITY
FISCAL YEAR (FY) 2006 MASTER INSPECTION PLAN

Dear Mr. Sepp:

In accordance with NRC Manual Chapter 2602, "Decommissioning Oversight and Inspection Program for Fuel Cycle Facilities and Materials Licensees," NRC Region III staff and management have developed a Master Inspection Plan (MIP) for the Hematite facility. The plan is based on your current performance and proposed schedule of decommissioning activities for the site from October 2005 through September 2006 (FY2006). The plan outlines how we intend to focus our Regional inspection resources to address significant ongoing decommissioning activities.

Because the FY2006 MIP is based, in part, on your proposed schedule of significant decommissioning activities for FY2006, the plan and the focus of NRC inspection activities may change to reflect a change in your planned decommissioning activities or your performance. In order to ensure that the FY2006 MIP remains current, we request that you keep the Decommissioning Branch staff informed of any significant changes in your proposed schedule of decommissioning activities. You will be informed of any significant changes to the Hematite FY2006 MIP.

We currently project that the Region will conduct 4 inspections during FY2006. The inspection procedures, which we may use during our inspections, are listed below. The use of specific procedures will depend on the decommissioning activities being conducted. The inspection procedures listed below are accessible from the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/insp-manual/inspection-procedure/index.html>.

<u>Inspection Procedure</u>	<u>Title</u>
IP 83822	Radiation Protection
IP 88104	Decommissioning Inspection Procedure for Fuel Cycle Facilities
IP 93001	OSHA Interface Activities
IP 88025	Maintenance and Surveillance Testing
IP 88005	Management Organization and Controls
IP 86740	Inspection of Transportation Activities
IP 88035	Radioactive Waste Management
IP 84900	Low-Level Radioactive Waste Storage
IP 88045	Environmental Protection
IP 88015	Headquarters Nuclear Criticality Safety Program
IP 83890	Closeout Inspection and Survey

<u>Inspection Procedure</u>	<u>Title</u>
IP 36100	10 CFR Part 21
IP 88055	Fire Protection

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

We will gladly discuss any questions you may have regarding this MIP. If you have questions, please contact Mr. Eugenio Bonano of my staff. He can be reached at (630) 829-9826.

Sincerely,

/RA/

Jamnes L. Cameron, Chief
Decommissioning Branch
