Bob,

At this address <http://www.nrc.gov/reactors/operating/licensing/power-uprates.html#status>

there's a list of approved, pending and expected power uprates. I think this will help.

Diane

Diane,

Do you have a source for this - i.e., listing of power plants getting power uprates and amount of uprates

Hi Bob. Do you have, or know where I might obtain, a list of pending power uprates for nuclear power plants in the Northeast (Region I)? In the U.S.? I am looking for uprate level (MWs or %) and eta on implementation. The information will feed some greenhouse gas analysis that we are working on.

Thanks.
