Subject: Re: Fwd: Attached Pictures of GE Stroage Liner in VY SFP...

Note....I am just clarifying this Subject line.

Are the attached pics of the ACTUAL storage container that is in the VY SFP?
(It is my current understanding that these pictures were obtained from GE during the ongoing records review....please clarify if these pics are of the container as built for use at VY)

The residents state that a container like this is resting horizontally in a rack on/or near the fuel prep machine....making it very hard to discern that the container is even there on a visual look.

I have not copied these pics to anyone at HQ yet...I plan to - on a limited distribution - once we obtain more information.
