Ewan,

The NRC staff will be entering all comments on the DEIS for the proposed USEC facility in ADAMS. In addition, the comments will be posted on our gas centrifuge website although this process could take some time. Therefore, all public comments will be available for review by the public and the Board.

Yawar,

I haven't heard back from you. Please let me know today (Tuesday) if you intend to alert the ASLB Panel to expect comments. If not, I'll put our comments on the docket today.
