Mr. Gillen,

Different reports were alluded to in recent media stories regarding the Vermont Yankee nuclear power plant. I believe the NRC report you are interested in pertains to a "yellow" finding that resulted from an Operational Safeguards Response Evaluation (OSRE) conducted at the facility in August 2001. You can find a copy of that report at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/REPORTS/vy_2001010.pdf

I should point out that subsequent reviews and inspections by NRC staff members determined that the security issues found during the evaluation had been successfully addressed.

Please let me know if you need any additional information.

comments: Greetings: Recently the news media made reference to a report about security violations at a nuclear plant, possibly a plant in Vt. that failed an internal security probe. Could you tell me how to find this report?

Thanks-
Mark Gillen
