MEMORANDUM: US nuclear Regulatory Commission Region IV  
Attn: Christi Hernandez  
611 Ryan Plaza Drive, Suit 400  
Arlington, TX 76011-8064

Subject: Amendment to License No. 30-27498-01

1. Request that the current RSO SFC Philip A. German be replaced by MSG Davis, Jeffrey.
  - a) In accordance with item 12b of our license. Future RSOs shall have successfully completed one of the training courses described in criteria in Section 8.8 of NUREG-1556, Volume 1, dated May 1997
2. Attached is a copy of the RSO training certificate for MSG Davis, Jeffrey and verification of training required by 49CFR, subpart H.
3. If you have any further questions, please contact MSG Davis, Jeffrey at (505) 679-4428 or (505) 679-4269

John Post  
LTC, USA  
Chief of Engineering

1. The first step is to identify the problem or question that needs to be addressed. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing resources.

3. Once the information is gathered, the next step is to develop a plan or strategy. This involves breaking down the problem into smaller, manageable parts and determining the best approach to solve each part.

4. After the plan is developed, the next step is to implement the solution. This involves putting the plan into action and monitoring the progress to ensure that the solution is effective.

5. Finally, it is important to evaluate the results of the solution. This involves comparing the actual outcomes with the expected results and identifying any areas for improvement.
