LISLE, ILLINOIS 60532-4352

OCT 03 2005

Mark A. Keller, B.S., CNMT
Radiation Safety Officer
CardioDiagnostics, Inc.
255 North Smith Avenue
St. Paul, MN 55102

Dear Mr. Keller:

Enclosed is your Amendment No. 08 to your NRC Material License No. 22-32018-01 in accordance with your request. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

At this time I updated your license to conform with current NRC licensing practice and revised 10 CFR Part 35, including deletion of Condition Nos. 13 and 14, as they appeared on Amendment No. 07; a new Condition 13; and some language changes, shown in **bold font**. If you have further questions concerning your license please contact me at (630) 829-9841 or (800) 522-3025.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

Colleen Carol Casey
