**DOMINION NUCLEAR CONNECTICUT, INC. (DNC)**  
**MILLSTONE POWER STATION UNITS 2 AND 3**  
**REVISION TO RESPONSE TO NRC REGULATORY ISSUE SUMMARY 2005-19**  
**PREPARATION AND SCHEDULING OF OPERATOR LICENSING EXAMINATIONS**

Dominion Resources Services, Inc. responded to NRC Regulatory Issue Summary 2005-19, in a letter, Serial No. 05-578, dated October 3, 2005. This letter included generic fundamentals examinations (GFEs) information for Surry, North Anna, and Millstone Power Stations. However, the information for Millstone Power Station included an error. The information listed in Section A for 2007 and 2008 on NRC Form 536 should have been in the column for the estimated number of licensee-prepared examinations instead of the estimated number of NRC-prepared examinations. Please find a corrected page attached for your replacement.

No new commitments are intended by this letter. If you have any questions or require additional information, please contact Mr. John Hayden at (804) 273-2707.

Very truly yours,

A handwritten signature in dark ink, appearing to read "CLF", followed by a horizontal line.
