Attention: E. W. Brach, Director
Spent Fuel Project Office

Subject: Request for Renewal of Certificate of Compliance No. 71-9203 for the Model No.
DHTF Package

Dear Mr. Brach:

Per the provisions of 10 CFR 71.38, Framatome ANP (FANP), Inc., an AREVA and Siemens Company, formally requests a renewal of Certificate of Compliance No. 71-9203 for the Model No. DHTF package. The expiration date of the current certificate is February 28, 2006. The current package configuration, as demonstrated in the existing submittal application, complies with the IAEA 1985 regulations. A consolidated application was previously submitted for the DHTF package (September 1996).

FANP requests that the Certificate of Compliance for the DHTF package be renewed for an additional 5-year period. In accordance with 10 CFR 71.19(b), the DHTF package was originally approved (Revision 0 to the Certificate of Compliance) by the NRC on December 6, 1985 and all packages currently used by FANP were fabricated prior to April 1, 1999.

In addition, FANP requests changes to the certificate for clarification purposes. Condition 6 on page 3 should refer to the current Drawing 1249874, Revision 5 instead Revision 4. This drawing is correctly referenced in Section 5(a)(3).

Please also delete FANP users; Mr. Phil Rieke (Framatome ANP Richland) and Mr. Robert S. Freeman (Framatome ANP) and add the following as the FANP package user registration and address:

Richard Montgomery
