Subject: Delivery of Public Outreach Project Intermediate Milestone 06002.01.161.510,
"Develop Physical Model of Yucca Mountain Region to Demonstrate
Multiple-Barriers Concept"

Dear Ms. Kotra:

During a visit to NRC headquarters on May 3, 2005, Miriam Juckett of CNWRA staff delivered and provided a demonstration of a prototype physical model of the Yucca Mountain region that might be used in support of public outreach activities to relate concepts of the multiple barriers system. This letter requests your acceptance of this physical model in fulfillment of the Public Outreach project intermediate milestone No. 06002.01.161.510. We plan to incorporate NRC staff comments or suggestions into any future versions of this model.

Should you have any questions or concerns related to this intermediate milestone, please feel free to call me at 210-522-5249, or Miriam Juckett, at 210-522-3266.

Sincerely,

James Winterle
